

GeMax-Logistik GmbH

Driving into the Future

Your partner in the temperature-controlled food transportation!

We specialize in transportation of food in controlled temperature and handling of food manufacturers. Among the products we transport are: bread, meat, fruit and vegetables. We provide our services in Germany, the Netherlands, Belgium, the Czech Republic and Poland.

We are reliable and efficient and to ensure quick and complex services we cooperate with our strong partners in the EU. We put great stress on the quality of transportation of your vulnerable goods and we assure that by continuous and fully documented chain of in-time-deliveries.

We bring your goods in time!

Our thinking and actions are orientated economically. Problems that occur on the way are solved. Our customers can be sure that their goods are taken care of with all possible meticulousness and legal requirements.

You are the most important for us!

Our development testifies to us. Ge-Max since its foundation on 28.02.2017 has significantly increased the number of orders. Perspectively, in the end of 2019 we will be able to praise of realizing ten times more orders than in the 2017.

Our core business is transport in controlled temperature, but we are open to new challenges. If you have any questions about transporting your goods, please don't hesitate.

We are waiting for your you! **Phone +49 (0)33398 699959**
